The Bangor Democraters Aggressions of the Slave Powers-Probable Results.

The Banger Democrat of this week, goes in with a rush in favor of the Southern Tauff Bill. recently passed by Congress, although it is comof its own party, by the Whigs, and by the capstatists and manufacturers of the country The law may inflict upon the ndustry of the coun try, upon its opponents By the Union of Lo cofocoism in the free Sta es, and Slavery in the of enriching, itself and securing to a portion of the friends places of profit. It is thereby tempt ed to cry aloud in favor of those measures pro jucted for the purpose of cuppling the free States and the gratification of the slave States, and it turns coldly away from the intere to aid weilure of the people of the iree States and of

as not to see that the leading measures of this administration are for the promotion of the slave Orliums on the 25th, from Brazis Santiago interest as paramount to the interest of the free. She reports that there was a general

slavery crush all their rights in the dust. It is that there would be no apposition offered to the enough, and more than enough, that an expent U.S. to one this side of that place sive way should be waged against weak and. On account of the quicinde of the enemy, the if slavery It is enough that the larger ed to this Government portion of the offices of the cred list, and of the Parede, was afraid to leave the capital, on States It is enough that experiments in the sence e resorted to-that the curse of slurery, as a state matitution, should blight a N O Prospune,) and his perty had been cut
portion of territory which else would be thickly off by the Indiana, but it was not generally cied: peopled by industrious freemen-that a public ted sentiment should be cherished in any part of our country hostile to the reputation of honest among the volunteers, the army was in a heal labor. These and other evils of slavery which thy condition we will not now stop to mention, are quite enough, without the additional aggression against the industry and subsistance of the free States, in a Tariff, framed, not so much for the up-building of the prosperity of the slave States, as for limiting the prosperity of the free States -a law made out of spate to the productive labor of the free States-a law purposely designed to tempt in foreign preductions to break down the well ordered industry of the fire States -Thus is too much, and ought not and will not

It will be strange and monatrous indeed where the passage of this unjust tariff excites so much opposition among the men of all par hearn the free States, if a portion of the Rep confidently predicted, will be veloced by the sceentatives of the free States, even of the loco President

party, do not see the learly wortex into which slavery would plunge the country, and be led

nificant and efficient opposition

The Bangur Democrat may loll itself in party ease; and shout his fly in favor of the destinative measures of imperious slavery, but it will find that the people are moving. The march of mind and of free principles is onward.

Justice will yet overtake the offinders, through the silent but potent power of the ballot. The sold long is the indominable Hall, the far severy structure on and phryposes of the people in this country, under the structure of the people in this country, under the structure will provide the proposes of the people in this country, under the structure of the people in this country, under the structure of the people in the silent but potent power of the ballot. The structure of the people in this country, under the structure of the people in this country, under the people in this country, under the people in the structure of the people in the people in the structure of the people in this country, under the people in the structure of the people in the structure of the people in the people in the structure of the people in the people in the structure of the people in the people in the people in the people in the structure of the people in the structure of the people in

advocating a pliable yielding of the free States to the insane demands of poverty stricken and very. It must lose the support of a portion, and the best portion, of its own party the best partian, of its own party

subject, and particularly of Mr Dilaction. We better, Woodbridge—24 ham, Webster, Webs mittee an hour, against the bil, and against the fute all slanders. The atmosphere of aggression, after being dr sepifrom olmost Tariff act.

Mr McClained of Mich spoke in favor of and explained the bil and its bearings.

Mr McClein of Pa proposed to amend by impraing certain specific duties on non and making and effecting the charge that where the sum of the sum and summaking and effecting the charge that where the sum of the summaking and effecting the charge that where the summaking and effecting the charge that the summaking and effecting the summaking and effecting the charge that the summaking and effect t making and leiterating the charge that Sweden being at all intimidated by any threats which bor r makes the earth s atmosphere reac 1 to the he may make. I may be permitted the remark, sun and vice tersu Kind redder, can you see however, that in such case he would better if the argument? You have it by distorting the justicate the principles of Christian charity by meaning of the word origina ing so as to con tetraining from redicule, and inner-presentation

"this may be taken as a softier specimen of suitendering his arms, for I have no use for such Swedenborg a philosophy I admit it. The weapons as he employs. While they would not proposition thus stated by him has, by med in enrich me, their loss might make him poor in philosophy, been proved strictly true In proof of the position that "Swedenborg

equally enabled to see the science of the spiritual world. The prophete, however, when they related what they saw, were furnished or in spired by the Lord with the very words which they used. Here in consists the inspiration—Swedenborg, on the control, minde its relation just as any historian would, by using such words and with such explanations as he chose in doing this at frequently illustrated his subject by introducing focts of science. In this out the respect were necessary, then the place were necessary, then the respective spiritually interested and the research of the recessary that it is controlled to show the people we spiritually a received the respective spiritually and authority of respective spiritually and authority of respective spiritually and authority of respective spiritually and respectively and respectively. In doing the attraction is a substitute of some to show the people we specified by introducing facts of source. In this has a possible to the substitution of substitution of substitution of the substitution other men receive such truths. If could not possibly be otherwise. Not only have spirits in gawny their cotts for B or a and modification in means of karning natural science over men in this world, but even far less. Being disconnected with nature, they have no means of becoming acquainted with the things and principles of nature, except as they learn them from spirits newly arrived from thence, and therefore the many contracts of the properties.

LOVER'S LEAP. and therefore they are in no state of knowledge to instruct men respecting them. Just as it was with the prophets. They never piclended to regette of teach any truths of hatmal science. a d for the reason that their new psychological relation gave them to information of that kind Accordingly we find Swedenborg expirin ng the nature of the things revealed to him to be "as cans concerning Heaven and Hell, the state of . Man after death, the true worship of God, the spiritual sense of the word, with riany other more important matters conducive to salvation and true wisdom. He could not and therefore did not profess to receive any scientific truths from his connection with spirits, and therefore I am correct in saying that errors, if any, in his phi tosophy, would not at all impoir his credibility as a teacher of spiritual truths. He had the same meens of ascertaining scientific truths as every other good man of a like intellect has and none other, and he never made any other pre tensions

LOVER'S LEAP.

I will snoth the anguish-riven hear 'I will calm the troubled breast, and o'er the soul 'twill calmly roll Foretaste of heavenly rest.

Phere is about this firm, grey rock, An old tradition ran, tale the lover's faith will mack, tale the lover's faith will mack, Tae weeks of wild despair. will prope that woman's trusting he Arnund its itol clings, it is cherashed there; at other cara

Twas here, some hundred moons again.
That two young lovers stood,
Ite listened to her artiess song
As any lover would.
The song of hymen's gentle reign,
Song of required love.
Where every tie of sympathy
Were closely-interwore.

In eadence soit and sweet, rome choing ruck, and pebbled shore, From the grotto's cool retreat: chimed so sweetly with the cound The rushing watersient, hut, through his soull now 'youd contral,

The started as to gain.
For echo still her notes prolong)
Another silvery strant.
Upon the verge, a crumb ing stone
Beneath hustroad gare way,
And in the tide, by th' rock's rough.
A mangled curpse he lay.

NEWSPAPERARCHIVE®

NEWSPAPERHACHIVE®

BY L. W. HOAG.

(t has a charm upon the mind, A power o'er the roul, And all the feelings firmly bind In fond and strong control.

A thrill or rapture sent.

With clenched hands and steaming eye

Then hear, oh! God, my nuptial vow,
This rock the altar'll be,
You weltering wave my bridal bed;
Edwin, I come to thea.'
Then wildly o'er the rock she sprong
Into the yielding sir,
And to the wave, her form she gare.
Together, resis the pair.
langer, 1346.

Express, for papers yesterday by the Cared of Files.
